

# Avila College Operoo Setup Instructions

Operoo is the digital portal utilised by Avila College to ensure that medical information, parental consents and other notifications are updated in real time. It is a critical communication channel between the school and parents.

All parents need to set up the Operoo profile for each enrolled student and download the Operoo app. If you already have a Operoo account for your daughter or have any queries, please contact IT Support on 9831 9600.
